DETAILS

A composition with a warm and welcoming color, contrasting textures, holes and refined finishes. A new way to conceive the office; sober and elegant lines, customisable furniture with high resolution printed textures. Several solutions to make the place where you work and live unique, whether at home, in the office or waiting room, in the gym, or in the library. A modular system of furniture and upper cabinets that allows

you to create custom-made interiors, with shelves or as a wardrobe. An almost infinite range of customisations with a wide choice of decorations that can be suggested by the customer, realized on each door or developed on several side-by-side wardrobes, dedicated accessories such as tops and clothes racks. The horizontal modularity includes widths from 45 cm to 90 cm, the vertical one from 45 cm to 185 cm.
